

TIPS FOR CM EXAMS

10 tips for successful Charlotte Mason exams

- Remember that the purpose of exams is to let the student showcase what he knows, not to catch what he doesn't.
- Download a PNEU programme for the age of your child from archive.org. Search for CMDC term programme.
- Use the PNEU exam questions in the back of the programme as a guide.
- Replace questions with similar ones from the materials your student is using.
- Spread exams over a full week.
- Let your student dictate to you if necessary.
- Don't show disappointment if your student can't remember something.
- Your child will remember different things than you do. That's OK.
- Evaluate - is there anything you need to change? Do you need to be more consistent with lessons?
- Celebrate!
